

Handheld mobile scrubber - BD 17-5 C

Stair cleaning made easy, ideal for contract cleaners and other companys that want to clean quickly and simply.

Optional water tank available.

An innovative and convenient hand held machine that is capable of cleaning both horizontal and vertical surfaces. For example when cleaning stairs, the treads and risers can both be easily cleaned and the two ergonomic handles provide maximum control and stability whilst in use. Whether deep cleaning, crystallising or polishing hard surfaces or shampooing carpets, most applications are possible with the right accessories.

Perfect for use by contract cleaners and all companies that want to clean small surface areas quickly and simply, such as stairs and window sills. Suitable for use on a wide range of different surfaces and cleaning tasks.
