

BDP 43-1500 Ultra high-speed floor polisher

Battery operated floor polisher

Kärcher's new range of ultra high speed polishers starts with the BDP 43-1500. A 1500 RPM battery polisher for cable-free buffing and polishing of all high-gloss floor surfaces.

Unlike conventional polishers the BDP 43-1500 is not operated in the pendulum motion, thanks to its large rear wheels the machine can be pushed in straight lines. This ensures even area coverage and also gives the ability to polish right to the edge of walls and other obstacles.

BDP 43-1500 Ultra high-speed floor polisher

Technical Specification

BDP 43-1500	1.291-209
Motor Rating (W)	480
Pad working width (mm)	430
Performance (m²/h)	860
Brush speed (RPM)	1500
Contact pressure (g/cm²)	3
Weight (kg)	63
Dimensions (mm)	770x500x1100
Accessories	Part No.
Polishing pad (white) 432mm	9.532-462
Polishing pad (red) 432mm	9.532-460
Polishing pad (beige) 405mm	6.370-138
Prespray attachment	6.670-200

The BDP 43-1500 is equipped with a folding handle, taking up less space when stored. Its battery will run for up to 2 hours on a full charge and the state-of-charge indicator keeps you aware of the level of charge left in the battery.

Work is even more efficient with the optional pre-spraying attachment, consisting of a pump, bottle and spray nozzle on the polishing head.
