

# Upright twin motor brush-type vacuum cleaner - CV 36/2 CV 46/2

## More efficient cleaning with brushes for deep down cleaning

Kärcher upright vacuum cleaners  
Recently updated and improved design  
- Deep down cleaning at its best

**NEW**

Deep down cleanliness is achieved with this brush type vacuum cleaner which features electrically driven brush motors and high suction power. It dislodges stubborn dirt particles, threads and hairs for more efficient pickup.

The wide, low profile brush head is great at getting right up to edges and corners, and the unit can be operated completely flat to get under furniture, beds and other obstacles.
