

## FF3 FAN HEATER

The 'Fire-Flo 3' is a completely new lightweight, compact industrial 3kW fan heater available in single voltage (110v or 230v), which replaces the FH3 model, which has served the hire trade well over the last 10 years. The new unit features soft curved edge styling and has been developed to give large heated air volume with its up-rated air moving system. The FF3 is designed to be fully stackable and uses high specification incolloy elements to give it safe, reliable operation. At airflow of 250cfm (430m<sup>3</sup>h) the temperature rise from air in to air out will be in excess of 35°C.

- ~ 3kW fan heater
- ~ Available in 110v and 230v
- ~ High efficiency incolloy elements for optimum heating and safety
- ~ Ducted version available
- ~ Stylish appearance
- ~ Robust construction, weighs 8Kg
- ~ Fully stackable
- ~ Quiet running, rugged all steel industrial design
- ~ Optional thermostat available to order

Weight 8 Kg Dimensions (H) 360 mm (D) 330 mm (W) 300 mm
