Mobile cold water pressure washer - HD 6/13 C Plus

Technical Specification

HD 6/13 C Plus	
Motor type (Volt)	240
Pump pressure (bar)	30-130
Water flow rate (l/h)	560
Hose length (m)	10.0
Weight (kg)	24.5

Optimum Performance:

A compact rugged 3-piston axial pump for a long service life along with an automatic pressure controlled shutdown upon release of the trigger for low energy consumption

Variable Pressure:

Water flow rate and bar pressure can be varied with ease as can the detergent flow making this unit suitable for all cleaning tasks

Operation:

The 10 metre high pressure hose (rubber quality with steel inlay) has been designed to a high standard and delivers consistent pressure along with the corrosion free stainless steel 850mm spray lance which can be turned under pressure to avoid irritating twisting of the hose

Ease Of Use:

The easy-press trigger gun with soft grip inlay is ergonomically shaped for reduced operating fatigue

Mobility:

The robust height adjustable aluminium handle can suit all operators and all accessories can be stored on the unit close at hand

Accessories

The triple nozzle provides optimum cleaning flexibility and effortless changeover of cleaning jets. The unit also includes a Dirtblaster nozzle for increased cleaning performance and larger area coverage

Includes
Dirtblaster Nozzle
