

Cold water pressure washer - HD 801 B

Petrol driven - versatile and convenient for cleaning independantly from an electricity supply

The petrol powered model is the ideal solution to cleaning problems in areas where there is no electricity supply.

The HD 801B features a four-stroke petrol engine mounted to a sturdy steel frame. The frame is designed in order to be mechanically handled by a crane.

Cold water pressure washer - HD 801 B

Technical Specification

HD 801 B	
Motor type (Volt)	Honda Petrol
Pump pressure (mbar)	140
Water flow rate (l/h)	650
Hose length (m)	10.0
Weight (kg)	41.0

Safety relief-valve provides low oil shut down and temperature sensor to protect any possible engine seizure.

The sturdy tubular steel frame features a powder-coated, corrosion resistant tubular steel frame with rubber-tyred wheels. It offers all-round protection for all components and an attachment point for a crane hook.

Low oil cut-out. Engine shuts down automatically if oil level drops too low.
