

KM 100/100 Ride-on Sweeper

Compact and Powerful ride-on sweeper

The powerful and highly manoeuvrable KM 100/100 R is an economical solution for dust free sweeping of large sized areas and is ideal for use in industry, municipalities and haulage companies.

This fully functioning yet, uncomplicated sweeper benefits from a host of convenient features; The main roller brush and side brush are raised automatically when not in use to avoid possible brush damage and the automatic brake is applied automatically on release of the accelerator, it can also be released manually.

Depending on the required applications, the machine is available with a choice of four drive options.

Powerful petrol or diesel engines for outdoor use with a 6.6kW 4-stroke Honda OHV petrol engine or 4.4 kW Yanmar diesel engine with electric starter.

Liquid Gas engine for both indoor and outdoor applications

The battery driven version comes as a convenient battery package unit with in-built batteries and charger for easy daily charging via a standard three pin plug.

Easy to maintain:

The two 50 litre pull out waste containers are made from corrosion-free durable plastics and are easily removed for emptying.

Effective round filter system:

Featuring the Kärcher patented automatic filter shaker which keeps the filters in a clean and serviceable condition at all times. The hard wearing polyester filter can be easily removed and washed.

Simple and comfortable to operate:

The control panel has been ergonomically designed with a minimum of switches and the driver's seat can be quickly and easily adjusted to individual operators requirements.
