

Vacuum sweeper - KM 85-50 W / WB

Top of the range walk behind sweeper - compact, lightweight and highly manoeuvrable.

Heavy duty pedestrian controlled vacuum sweeper with the option of a powerful 4-stroke petrol engine or a reliable battery driven engine. The battery driven version comes as a battery package unit with in-built batteries and charger for easy daily charging via a standard three pin plug. This robust sweeper is designed with a sturdy plastic chassis with integral bumper and protective deflector for the side brush. The chevron bristles ensure quiet operation and excellent debris collection.

The petrol driven version is especially well suited for cleaning yards, outdoor parking areas and for grounds maintenance and the quiet battery driven option is well suited for indoor areas in the trades and industry.

Petrol or Battery versions available.
