

Intended for recessing the Modi combination system is a versatile hand drying concept. Consisting of three modules, each module can be combined or installed separately, ensuring maximum flexibility. Hygiene was identified as key issue during the products development and as a result all visible components are brushed stainless steel.

**CODES AND DESCRIPTIONS FOR COMBINED MODULES**

**MODI ONE**

Recessed combination system includes a paper towel dispenser, hand dryer and waste receptacle - as shown. Wall opening for recess W275 D185 H1400.

LM123CS Satin.
