

Mini Fogger

Spray Systems are proud to introduce the latest member of our family of fogging machines, the **CE approved** 'Mini Fogger'. Constructed of corrosion resistant materials and available in 110V and 240V, it is designed for jobs where a smaller and less expensive fogging machine is desirable.

Applications

Key markets are:

- Spot control odour
- Local pest control
- Humidifying
- Disinfecting
- Hotel room smoke odours
- Care home odour control
- Rental car turnarounds
- Pesticides
- Sanitisers
- Perfect for sales demonstrations

It's easy to use: Twist the power head to detach the tank and pour in your solution. Another half twist and the 'Mini Fogger' is ready for use. Use the rotary valve to adjust the output size, from a fine light fog to a coarse mist.

Specification

Motor	110V or 240V
Liquid Capacity	1 Litre
Chemicals	Any lightweight liquid. Nozzles can atomise both oil-based and water-based fluids
Particle Size	15-40 microns, adjustable
Discharge Rate	0-120ml/min adjustable
