

SB V1 Eco

Self-Service Vacuum Cleaner

The SB V1 Eco is a unique and efficient self-service vacuum cleaner that offers a superb revenue stream for your business. The machine features a tough, stainless steel casing which houses a highly innovative vacuum cleaner with an automatic filter clean system. This filter clean system ensures high performance at all times, regardless of how much dust is being collected. Because the vacuum cleaner inside the casing is mobile, it can also be used by staff for cleaning in other areas of your business.
