

Glueboard Fly Killers

High performance alternatives:

Where an alternative to electric fly killing grids is required, Insect-O-Cutor has a complementary range of glueboard fly killers. This includes units which are discreetly attractive, being particularly appropriate in sensitive areas such as hotel lobbies and dining areas. They are silent in operation and exceptionally easy to maintain. Insect-O-Cutor glueboards are specially designed to catch and hold large numbers of insects. The unique adhesive formulation remains effective for up to three months, even when exposed to UV light.

INSECT-O-CUTOR

- High performance **Synergetic™** UVA-Green lamps, for enhanced insect attraction
- Tool-free maintenance for ease of cleaning and lamp replacement - no loose fittings to misplace
- Shatterproof lamps standard on IND35, IND50 and IND65. Optional on other units
- Large capacity Glueboards with long-life adhesive
- All metal construction from Zintec steel with polyester powder coat finish. IND65 also available in food-grade stainless steel
- Approved to EN60335-2-59 (Insect Killers Safety Standard)
- HyGenie available in brushed stainless steel as standard. Other colours available to order
- **Five year guarantee** (excluding lamps)
