Henry Hound

The family's best friend...

Henry, the vacuum cleaner, has genuinely changed the face of cleaning... and that's no exaggeration.

Henry Hound sets entirely new standards of cleaning performance but, in addition, we have added our own Odourtex Filtration System and one of the most comprehensive electric power nozzle kits available.

Performance Henry's performance is legendary, providing the perfect balance between suction and air flow. There really is nothing quite like it as you will see for yourself from almost the first moment you switch on.

Odour Control The giant Odourtex activated charcoal filter ensures that what goes in stays in, odours included and Microflo' dust bags are really efficient, making emptying not only easier but so much cleaner.

Accessories The unique TurboElectric Kit is totally complete, with a choice of both power nozzle and standard nozzle for floorcare, and a full range of separate accessories for all those other cleaning tasks. High level, low level, hard floors, carpets, pictures, pelmets or curtains... you name it!

Henry Hound... so much more than just a vacuum cleaner - he's a real pet!

DATA... DATA... DATA...

				
Motor	Power	Airflow	Suction	Brush Power
Mains 1100W	240/120V AC 50/60Hz	40 litres/sec	2400mm	24V
				
Filter	Capacity	Cleaning range	Weight	Size
Odourtex	9L	31.8m (104ft)	10Kgs	340 x 340 370mm
