

Industrial Series

for factories and warehouses:

Area of coverage	350m ²
Lamp(s)	2 x 20 Watt Synergetic shatterproof insect attractant lamps (2 x ref: T20GS)
Mounting	wall mounted, ceiling suspended
Power consumption	62 Watt
Dimensions	690w x 240d x 490h mm
Weight	12.5kg
International protection rating	IP44
Finish	white polyester coated zintec steel or food-grade stainless steel

The IND41

Designed for ultimate performance in food processing and warehousing premises, abattoirs, breweries, bottling and packing plants. Has a massive 350 square metres coverage and comes with shatterproof lamps as standard. Suitable for wall mounting or ceiling suspension.

Area of coverage	500m ²
Lamp(s)	3 x 20 Watt Synergetic shatterproof insect attractant lamps (3 x ref: T20GS)
Mounting	wall mounted, ceiling suspended
Power consumption	95 Watt
Dimensions	690w x 240d x 490h mm
Weight	12.7kg
International protection rating	IP44
Finish	white polyester coated zintec steel or food-grade stainless steel

The IND61

The more powerful IND61 has an increased area coverage of 500 square metres. The newly designed guard for this series allows greater light output. This together with an integral central 'V' shaped deflector significantly increases performance. Suitable for wall mounting or ceiling suspension. Built to splash-proof standards. Shown right in stainless steel finish, with optional extra large catch tray.

YW61 for permanent outdoor use:

Lamp(s)	3 x 20 Watt Synergetic shatterproof insect attractant lamps (3 x ref: T20GS)
Mounting	fixed frame permanently concreted into a depth of 0.5m. unit needs to be connected via IP65 waterproof plug and socket (not supplied)
Power consumption	95 Watt
Dimensions	2015w x 1000d x 800h mm
Weight	12.7kg
International protection rating	IP57
Finish	stainless steel with galvanised mounting frame

The YW61

The Insect-O-Cutor Model YW61 is designed for permanent outdoor installation where there is a significant problem with flying insect pests.

Based on the proven Insect-O-Cutor Model IND61, the YW61 is modified for permanent outdoor installation and to cope with extreme numbers of insect pests.

Supplied with canopy to protect the unit from the worst of the elements, to act as a sunshade and to deflect the attractant light downwards
