

Twintec Battery TTB3450CRS

Here you have a machine with a deep clean 450mm cylinder power head, a full stainless steel chassis, full 30-litre capacity, a high efficiency aluminium semi-parabolic wet pick-up head, on-board battery charger and fully adjustable, operator control-centre handle.

The Twintec CRS machine has just about the best of everything and is the result of customer demand for a high level of single pass performance for stone grouted, dimple thermoplastic and non-slip safety floor surfaces.

Easy to fill... easy to empty... easy to charge... easy to use, and, at the end of the day, easy to see the exceptional results.

Simple to Use Operator Handle

Easy Tank-Filling Access
