

WVDB 900 Wet Pick Up Bowling Green Vacuum

Description

The 'revolutionary' WVBD 900 is without doubt the perfect cleaning companion for use when cleaning "outdoor" bowling greens and tennis courts. The multipurpose design of the vacuum ensures perfect results every time. From vacuum cleaning the early morning dew through to "blow drying" the green ready for play, we are sure you will be impressed.

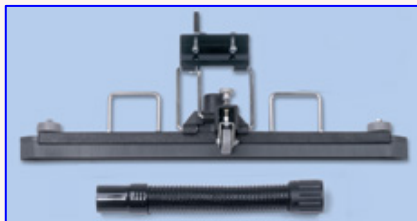

The vacuum is constructed, using "Structof foam" giving unrivalled strength combined with a lightweight finish. When it comes to power, the vacuum utilises two "Twinflo" bypass motors giving high power results that enable a deep clean or blow dry with ease. Mobility is also an important aspect when cleaning, something made easier by our "Twin Wheeled" carriage system and in line triple castors. The vacuum can also be used as a leaf blower/collector when used with the optional extra "leaf kit". With so many possible cleaning applications, we are sure you will agree, the WVBD 900 is the "jack" of all trades when used on the bowling green or tennis court.
