

Numatic International Ltd Specialised Aircraft Utility Vacuum ANV180-1

Product Code 000-206 (110v 400Hz)

The ANV 180-1 is one of the lightest Aircraft Cleaning Vacuums available today with an in use weight of only 5.8Kg. The lightweight design of the vacuum makes it easier to carry on and off the Aircraft with minimal fuss. The vacuum also incorporates a 25mtr Hi-Viz orange cable making it easier to detect when in use. Utilising an 800w tapered fan motor the vacuum provides ample power and is rated at 110v 400Hz, designed specifically for use in Aviation applications. A full accessory package is also included with each vacuum so whether you are cleaning the floor, dusting down the upholstery or cleaning hard to reach areas, there is always a tool ready to undertake the job at hand.

Please note; this vacuum is only suitable for use when cleaning on-board Aircraft where the higher operating frequency of the product prevents interference with sensitive radar equipment.....

110v 400Hz
Operation

The ANV180-1 carries the latest in technical compliance approvals, aimed at Aircraft Cleaning Utility Applications and forms part of a new and improved range of products introduced by Numatic Specialised.
