

Space at a premium?

Utilising a powerful high efficiency forward curved impeller, the **MCM280PD** offers the convenience of 200mm diameter exhaust with the power to duct up to 10 metres

The **MCM280PD** powerful cool air delivery allows 3 areas to be cooled at once up to a distance of 10 metres offering the perfect combination of performance and style

Description

With the same great performance as the MCM280 but with the added versatility and convenience of narrow 200mm duct allowing for easier installation The MCM280PD can also be extended to 10m opening up areas previously inaccessible to Portable Air Conditioning

Ideal Applications

Offices - Marquees - Hotels - Kitchens - Data Centres - Server Rooms - Portable Buildings - Laboratories - Hospitals - Gymnasiums - Schools & Colleges - Shops & Restaurants - Exhibitions - Oil Rigs

Specification
