

Dust control is the most important part of floor cleaning - hard floors must be swept before mopping, scrubbing or polishing. All of our sweepers attract and hold fine dust without the need for chemical treatment.

"More efficient than a broom...faster than a vacuum cleaner...prevent airborne dust contamination!"

Golden Magnet

Attracts and holds fine dust - ideal for use in hospitals, schools, supermarkets and other institutions where flying dust is a hazard.

- Synthetic acrylic sweeper heads are easily laundered.
- Complete with folding aluminium frame for easy loading/unloading.
- Available in 3 sizes as 40/60/80cm complete units or replacement heads.

UNDARAK Sweeper

Perfect for sweeping under shelving and racking in supermarkets, shops, stores and warehouses.

- No bending - cuts down potential back injuries.
- Fast single handed operation with long handle and wide bar cuts down job time and improves performance.
- Ingenious design - pushes debris through for pick-up on the other side.
- Dry, wide static dust control with replacement mop head.
- Folds for easy storage.
- Can also be used with microfibre & damp mops.

Golden Glove

Simple and easy to use as either hand duster or as a replacement head for our Hi Gold Duster.

Hi Gold Duster

For floors and walls - can be fitted to telescopic pole for higher cleaning.

- Complete with 1 metre handle and grip to accept telescopic pole.
- Swivel frame and removable synthetic dusting head.

Golden Magnet 'V' Sweeper

Operating like scissors and extending to 1.6 metres wide giving up to 3000 sq.metres an hour sweeping.

- Sweeping width can be adjusted whilst in use.
- Ideal for large open areas and long corridors.
