

HZ 350

HZ 750

With Numatic Specialised the choice is clear with two models aimed at Hazardous Utility Applications. Each model is supplied with a full accessory kit, spare dry filter and a packet of disposable HEPA-FLO dust bags.

HZ 350 Hazardous Utility Vacuum

Many dusts are known carcinogenic substances, something that needs to be cleaned up with care. Numatic has recognised the many problems created when cleaning up in this type of environment, something now catered for using our range of Hazardous Utility Vacuums. The HZQ 350 sets the standard when cleaning dry hazardous particulates and boasts a filtration level of 99.997%, thanks to the fitted HEPA module. Power is provided by a 1200 watt "Twinflo" motor giving more than enough suction power for all but the most demanding of tasks.. The vacuum boasts three stage filtration ensuring that what's cleaned up, stays cleaned up! Each vacuum comes complete with a full accessory kit ideally suited for utility applications. A vacuum that is ready for action with performance to match are just two reasons that make this "the right choice" for a multitude of applications within the cleaning industry.

The HZ350 carries the latest in technical compliance approvals and is part of a new improved product range produced by Numatic Specialised aimed at Hazardous Utility Applications.

HZ350 Technical Specification

Regulatory Compliance

Machinery Directive 2006/42/EC

EMC Directive 2014/30/EU

RoHS Directive 2011/65/EU

IEC 60335-1 2001 + A1 2004 + A2 2006 + National Deviations

IEC 60335-2-2 2002 + A1 + A2

IEC 60335-2.69 2002 + A2 (including Annex AA)

EN 55014-1 2001 + A1 2001, + A2 2002

EN55014-2 1997 + A1 2001 (Cat II)

EN 50366 2003 + A1 2006

Features Include

1200 Watt Twin Motor Output

10mtr Mains Cable

All Metal Construction

Fully Mobile Chassis

10 litre Dry Waste Capacity

Permatex Filter Set

HEPA Filtration

Accessory Package

Two Year Vacuum Warranty

Selling Points; Compact Design, H Specification, Complete Package

With Numatic Specialised you get more than just a vacuum cleaner. Our products are custom manufactured in our own bespoke workshops giving a unique build quality, while encompassing the traditional standard Numatic design.

HZ 750 Hazardous Utility Vacuum

Many dusts are known carcinogenic substances, something that needs to be cleaned up with care. Numatic has recognised the many problems created when cleaning up in this type of environment, something now catered for using our range of Hazardous Utility Vacuums. Powered by a 1200 watt 'Twinflo' motor, the HZ750 comes with more than enough power to tackle all but the most demanding of tasks. A Lo-Flo indicator and 'Nu-Cable' removable plug system are incorporated in the design, not to mention the fitted exhaust port. Supplied with a HEPA filtration module certified to 'H' class retaining 99.997% and primary 'Permatex' filter and 35 litre HEPA-FLO dust collection bag, meaning that once it is sucked into the vacuum, it stays in the vacuum! The vacuum set up incorporates a fully mobile chassis and accessory kit, making it ready for use no matter what the task, a perfect recipe for complete cleaning success.
