

# Loline

Good planning and equipment selection is the key to good performance with the resulting improvement in standards of both cleanliness and hygiene.

Careful consideration of each and every area to be cleaned, the frequency necessary and the staff availability is essential and by ensuring the correct equipment selection to meet

your criteria, efficiency will be seen to increase and the quality of the results will visibly improve.

*Loline. Setting an entirely new standard and level of acceptance for professional floorcare... putting convenience and results first.*

*Loline... going where others can't go!*

# Loline 332 & 415

# Loline 332

(33cm/200rpm)

Compact storage

Heavy-duty drive system

The Loline range of low profile floorcare machines has been developed to meet both the growing demand and need for a choice of models that are smaller in size, lighter in weight, compact and convenient in storage whilst, at the same time, being quick and easy to use without loss of performance.

The new Loline rotaries have been designed specifically to meet this demand and raises the handling and performance levels to an exceptional user friendly standard be it for men or women operators.

The smallest model in the Loline range can claim performance characteristics equal to that of bigger, more industrial machines, yet with an ease and speed of operation that will immediately endear it to any operator.

A full range of 33cm (13") brushes and pad drives allows the machine to be used for all of the primary floorcare functions. With a total weight of only 18Kg and an operating speed of 200rpm the machine literally exudes convenience and versatility. Fast and user friendly like never before.

# Loline 415

(40cm/150rpm)

Easy-fill system

Operator control centre

With the increasing demand and need for higher standards of cleanliness, the Lolines will put truly useable power in the hands of the operator, yet with a level of convenience that cannot fail to impress and, subsequently, to improve both efficiency and the final results.

The Loline 415 model embodies all of the many unique features of the 332 but is suitable for a range of larger 40cm (16") brushes and 36cm (14") floor pads.

With this machine running at an operating speed of 150rpm it is a genuine taskmaster, satisfying a whole host of floor maintenance needs, be it polishing, scrubbing or rotary carpet cleaning, and yet with an ease of handling that cannot fail to impress any

user, and even more so where extended operating hours are part of the daily routine.

The solution tank system allows for easy use and compact storage, whilst its unique universal filling system adds further to operator convenience.
