

Numatic International Ltd Specialised HAS750 AntiStatic Utility Vacuum

Product code; 838740 (230v)
SSP £1,533.71 + VAT

The Numatic HAS 750 Hazardous Utility Vacuum incorporates many features making it ideal for most dry pick up applications where advanced HEPA filtration to a 'Clean Room' standard is required. Being conductive, the vacuum is ideal for ESD applications, not to mention the safe pick up of potentially static dust/debris. As standard the vacuum incorporates a "Twinflo" vacuum motor providing more than enough power for most cleaning tasks, further complimented with a "Four Tier" filtration package giving an overall level of filtration at "0.5 micron", retaining 99.9998%.

With all these outstanding features included, the Numatic HAS 750 Hazardous Utility Clean Room Vacuum is ready for use straight out of the box. Simple yet effective and packed with features, what more can we say!

The HAS 750 carries the latest in technical compliance approvals, aimed at Workshop Utility Applications and forms part of a new range of improved products introduced by Numatic Specialised.
