Introducing ReFlo Technology...

The ReFlo in our VersaCare range is engineered from the highest quality, recycled plastic using our innovative, environmentally sustainable ReFlo Technology. ReFlo Technology uses post-industrial plastics from the automotive industry, which are diverted from landfill or incineration.

Recommended SRK Kits for trolleys within the VersaCare Range. Specification subject to change without prior notice.

Numatic

Nu-Design

Bespoke Janitorial

Individual Environments Demand Individual Cleaning Solutions

Finding a janitorial system that fits your needs completely can be a real challenge. Giving total freedom of choice to the user, Nu-Design offers the ultimate solution.

Nu-Design guides you through the product configuration process, providing a visual output and configuration breakdown at each selection. The result; a reliable, functional and innovative cleaning system that fits your needs precisely.

Poor selection and configuration lowers cleaning standards and productivity.

How it works

1. Select your trolley base and castor options
2. Pick storage options that meet your needs exactly
3. Choose your mopping system, waste options, accessories and personalisation
4. Submit for an itemised breakdown and quote

Compatible with desktop and mobile devices
