VersaCare Contents

MultiMop MM30G **Professional**

The professional MultiMop is one of the simplest, most effective smaller area mopping systems you will ever use; super clean floors… twice as fast… not to mention walls or even ceilings, it's the thoughtful design concept that makes it so outstanding.

With a unique giant 350mm sponge mop that will outperform the rest, the sponge absorbs more than 10 times its own weight in liquid so you can put plenty down and pick it all up again, this operational design makes it virtually self-cleaning.

OPTIONAL MOPS

Sponge Mop
Standard

Scourer Mop
(Optional)

COMPACT & Convenient
MultiMop is one of the simplest, most effective smaller area mopping systems.

PROMOTES HYGIENE
& Prevents Contamination
Industry colour-coding for effective infection control.

POWERFUL CLEANING Results
Super clean floors, twice as fast…not to mention walls or even ceilings.

EASE of Transit
The pail runs on 4 twin wheel castors, no more lifting buckets all the time.

STAY CLEANING for Longer
Huge 30L capacity, less time emptying, more time cleaning.

Castors (MM)	4x50
Dimensions WxLxH (MM)	340x475x320

Hi-Bak HB1812R **Professional**

ReFlo TECHNOLOGY

The HB1812R represents a super compact, truly professional dual compartment mopping unit.

Our unique parabolic separator allows a generous 18L front clean water container and 12L dirty water section to the rear.

The 60 / 40% split in container capacity is genuinely practical, allowing larger areas to be cleaned before emptying and refilling is required.

HB1812R
High Press
Mounting

BUILT to Last
Chemical-resistant, heavy-duty Structofoam construction for easy-clean design.

SUSTAINABLY Engineered
Made from high-quality recycled plastic using ReFlo Technology.

PREVENTS Contamination
Parabolic separator keeps clean and dirty water separate.

INCREASE Productivity
Vertical Press allows use of both Kentucky style and Flat mops.

STAY CLEANING for Longer
Huge 30L capacity, less time emptying, more time cleaning.

MMB1616 **MidMop**

The MidMop is always on-hand and easily stored, compact design providing a go-anywhere twin-bucket mopping system.

Versatile convenience with the mop press conveniently mounted in the middle, above the clean and dirty water buckets. This provides the advantage of full access to both buckets all of the time, with the press in the optimum position. Both 16L buckets can be easily removed and replaced without moving the mop press.

BUILT to Last
Chemical-resistant, heavy-duty Structofoam construction for easy-clean design.

SUSTAINABLY Engineered
Made from high-quality recycled plastic using ReFlo Technology.

PREVENTS Contamination
Integrated diverter redirects dirty water into separate bucket.

INCREASE Productivity
Vertical Press allows use of both Kentucky style and Flat mops.

STAY CLEANING for Longer
Huge 16L clean and 16L dirty capacity less time emptying, more time cleaning.

4 x Shallow Storage Drawers
and Lockable Doors.
Consumables for illustration purposes only.

PM13
• Optional Castors
• Optional Doors
• Optional Storage Drawers
• 580x972x1073mm (WxLxH)

PM13 with optional:
• 2 x Deep Storage Drawers
• 4 x Shallow Storage Drawers
• 6 x Storage Box Runners
• Castors: 4 x 100mm
• 580x972x1073mm (WxLxH)

PM13 with optional:
• 2 x Deep Storage Drawers
• 4 x Shallow Storage Drawers
• 6 x Storage Box Runners
• Castors: 4 x 100mm
• Lockable Doors
• 580x972x1073mm (WxLxH)

PM13 with optional:
• 2 x Deep Storage Drawers
• 4 x Shallow Storage Drawers
• 6 x Storage Box Runners
• Castors: 4 x 100mm
• Lockable Doors
• 4 x 5L Pails
• 2 x 10L Buckets
• 580x972x1073mm (WxLxH)

NEW PRO-Matic **PM24 & PM34**

Our latest additions to the PRO-Matic Range, the PM24 & PM34 provide a lockable multi-waste recycling system.

The PM24 and PM34 offers the option to separate your waste responsibly with a choice of 3 or 4 industry colour-coded bins.

BUILT to Last
Chemical-resistant, heavy-duty Structofoam and Stainless Steel construction.

SUSTAINABLY Engineered
Made from high-quality recycled plastic using ReFlo Technology.

INCREASE Productivity
Quickly and easily separate your waste.

INDUSTRY Colour-coding
Easily identify which bin to use with industry colour-coding.

DISCREET WASTE Facility
Folds away for compact, convenient and unobtrusive waste storage.

PM24 with SRK21
and SRK22 Kits and
SRK28 Door Panel Kits.
Consumables for illustration purposes only.

PM24
• Waste 3 x 120L / 6 x 70L
• End Detachable Wheeled Bins and Central Static Bin
• Optional Castors
• Lockable Doors
• Industry Colour-coding
• 580x1335x1073mm (WxLxH)

PM34 with SRK21
and SRK22 Kits and
SRK29 Door Panel Kits.
Consumables for illustration purposes only.

PM34
• Waste 4 x 120L / 8 x 70L
• End Detachable Wheeled Bins and Central Static Bins
• Optional Castors
• Lockable Doors
• Industry Colour-coding
• 580x1700x1073mm (WxLxH)

Removable Bin Feature
Completely detachable and manoeuvrable swing-out bin for convenient waste removal. Colour-coding options available for effective infection control.

Recommended SRK Kits for trolleys within the VersaCare Range. Specification subject to change without prior notice.

Numatic Nu·Design
Bespoke Janitorial

Nu-Design guides you through the product configuration process, providing a visual output and configuration breakdown at each selection. The result; a reliable, functional and innovative cleaning system that fits your needs precisely.

Individual Environments Demand Individual Cleaning Solutions

Finding a janitorial system that fits your needs completely can be a real challenge. Giving total freedom of choice to the user, Nu-Design offers the ultimate solution.

Poor selection and configuration lowers cleaning standards and productivity.

How it works
1. Select your trolley base and castor options
2. Pick storage options that meet your needs exactly
3. Choose your mopping system, waste options, accessories and personalisation
4. Submit for an itemised breakdown and quote

Compatible with desktop and mobile devices

Visit: numatic.com/apps/nu-design

ECO-Matic TM **All-in-one Solution**

The ECO-Matic TM Compact Range offers an all-in-one, ready to go compact cleaning solution.

Providing all the benefits of the EM trolley with the extra advantage of a Twist Mop Kit, Dolly Mop Bucket and 2 x 10L Buckets.

COMPACT Design
Small cleaning trolley, easy to store and unobtrusive in use.

CONVENIENT STORAGE
Easy-access, open-shelves or deep storage drawer options.

BUILT to Last
Unique Structofoam construction using co-polymers for high-impact strength.

SUSTAINABLY Engineered
Made from high-quality recycled plastic using ReFlo Technology.

THE RIGHT CLEANING TROLLEY for the Right Job
Includes: DTK9 Twist Mop Kit, Kit SRK14 and Kit SRK22.

NuBag Range

Designed to provide space saving answers in super strong but smaller sizes.

Twin waste, twin linen and twin laundry modules have always been the most popular in commercial establishments. Due to the dual end design in the NuBag range, twin split modules are also possible, incorporating waste and laundry, laundry and linen or waste and linen.

NSX240R

SAX120PR

LLT200R

TWIN Sax NSX240R
Compact mobile twin 120 litre waste trolley, fully lidded providing excellent capacity for normal waste collection and disposal.

TWIN Linen LLT200R
Structofoam chassis and lidded superstructure, designed to take two full 100 Litre washable linen laundry bags. Bags can be easily colour-coded.

SINGLE Sax SAX120PR
A compact mobile 120 litre waste lidded trolley.

TWIN Bags NBT200R
There are many applications where 2 x 100 litre bags are required, especially within the hotel and care-home environment.

BIG Bags NB3002R / AT
For large laundry volumes with a 200 litre and 100 litre bag (300 litre). In addition, 2 x 100 litre bag extensions can be added, providing up to 500 litre in 4 detachable bags.

NuBag Range

Big in use, small in storage, the Servo-X trolley range will always find favour in the many locations where space is at an absolute premium.

All Servo-X trolleys can fold easily for storage and the laundry bags can be removed, incorporating drag handles and our top closure system.

Servo-X uses all the same bag sizes as our NuKeeper and NuBag units, providing total uniformity and allowing a fully integrated and co-ordinated professional approach to system planning.

NuKeeper **Single & Low Level NKS Range**

Compact, considered and capable…
the NuKeeper Single series will always be a
welcome addition where space is at a real premium.

Every single feature within the NuKeeper Single series (NKS) is focused on efficiency and capacity. Each NKS unit is equipped with space saving Flexi-Front system, folding laundry bags, corner buffers and heavy-duty 360° castors, rising to the challenge of tight corridors and elevators. The NKS Low Level (LL) offers a solution when greater visibility during transit is needed.

NuKeeper Twin & Low Level NKT Range

The NuKeeper Twin Series is a genuine exercise in downsizing from the outside without downsizing from the inside.

The NuKeeper Twin Series (NKT) is compact in proportion whilst big on capacity. Constructed with Structofoam, using co-polymers for high-impact strength and high-quality recycled plastic with ReFlo Technology. Every detail is considered with the environment and user in mind… Flexi-Front enclosure, rotating side buffers to protect walls and even a Low Level (LL) version when visibility during transit is a consideration. Compact in size… big on storage.

NuKeeper Universal **Top Tray Kits**

A complete range of accessory kits provide the specification you need with no compromise.

With the NuKeeper Universal base unit selected, the user can now consider each requirement of their particular cleaning schedule. Tray Kits provide multiple storage choices and are easily removable for replenishment of consumables. Each Hood Kit has its own merits with open, lidded and secure lockable options. Adding an End Kit can further increase the versatility of each trolley, including the option of adding a mopping system or vacuum platform.

PolyStatic **Professional Mops**

Dust care and control is fundamental to the majority of public area cleaning programmes, as is spot cleaning when appropriate.

The PolyStatic disposable mop system, offers the best of both worlds whilst being fully cost controlled.

COMPACT & Convenient
Large enough for quick cleaning, yet compact enough to clean in tight spaces.

IDEAL FOR Spot Cleaning
Perfect for cleaning spills and marks without significant amounts of water on the floor.

USER-Friendly
The velcro mop cloth fastening couldn't be quicker or easier.

INCREASE Productivity
The more you use it, the better it works with no chemical residue left behind.

USER Comfort
Professional cleaning in comfort with the ergonomic rotating hand-hold.

PolyStatic is our original electrostatic dust control material, 100% polyester with no added chemicals it leaves no chemical residue on the floor surface, plus the more you use it, the better it works.

For dust control sweeping, the PolyMop holder is both efficient and exceptionally convenient. So, as and when time permits, clean, dust-free floor results are quick and easy to achieve, an added bonus for everybody.

Mopping Systems

Mopping, incorporating today's advanced technology, is both effective and efficient.

It is imperative you select the correct mopping set and mop design to suit the individual application. The type of floor to be mopped and the frequency of floor maintenance are crucial in the selection procedure, and time spent in reviewing the options is time well spent.

Vertical Press

The patented Vertical Press is a popular choice, allowing the use of both Kentucky style and Flat mops.

Can be equipped with AWS (Automatic Water Separation) system, separating your dirty water and keeping your clean water… clean (see Mopping Sets details). It is vitally important to decide between Kentucky Mopping and Flat Mopping at the very onset of the equipment selection. The press design is such as to accommodate both 400gr/450gr Kentucky Mops or our range of 40cm Flat Mops with equally good results in use.

Hang-on Flat Mop

Kentucky Mop
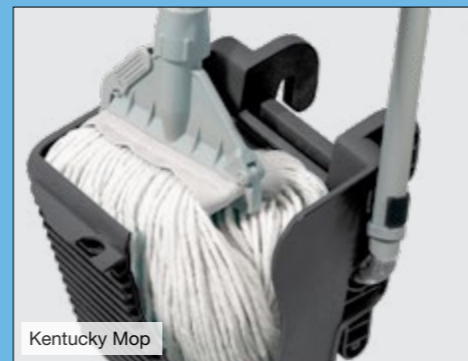

Wide Press

The Wide Press is designed to be used exclusively with our Flat Mopping Systems.

By virtue of the unique power press operational concept, this is just about the most convenient and effective wide press design available, and can be used with our full range of Pocket or Velcro backed mop heads.

Pocket Mop

MopMatic **Hands-free Mopping**

MopMatic is a unique mop preparation system that allows operators to have an almost constant supply of clean, uniformly impregnated mops to carry out the task in hand. Whether the need is for cleaning or disinfecting, or a combination of the two, uniformly prepared mops leave nothing to chance.

1 Load the mop box with 12 clean MopMatic mop heads, pockets facing up…

2 Close lid, push firmly on lid and lock over all 3 latches. Ensure all latches lock down…

3 Turn box on its side "foot down" and open sliding door of dispensing reservoir…

4 Gradually pour 2 litres of the approved solution into the dispensing reservoir…

5 Close the sliding door and leave to soak for 10 minutes…

10 mins

6 After 10 minutes, return pail to the lid up position, open the lid and use the Wing Mop to remove the mop head (hands-free)…

7 Push down to fully engage mop head in to Wing Mop pockets…

8 After use, place mops in appropriate dirty mop container (hands-free). Bucket can hold approximately 20-25 dirty mops.

Mop Holders

Choose a mopping system that suits your needs and the areas to be cleaned.

Kentucky Mops for floor washing, plenty of water down and plenty up again.
Flat Mops for high efficiency fast floor cleaning, covering large areas in double quick time.

DTK1 Kentucky Mop Set
