

Numatic International Ltd Specialised WVD900c Wet Pick up Utility Vacuum

Product code; 903764 (230v)

SSP; £612.51 + VAT

Utilising full Structofoam design, the WVD 900C is the bigger brother to the WVD 570C, aimed at industrial applications and is supplied as a twin motored set up utilising 'Twin-Flo' bypass motors. Fitted with a 51mm cyclonic entry the vacuum can be used with a multitude of kit options and accessories making it ideal for most applications.

Being a larger vacuum, fixed 250mm wheels are fitted to the rear of the drum assembly while 76mm castors provide direction on the front. With a wet capacity of 30 litres and a dry capacity of 40 litres, the contents are easily emptied utilising the handle/tipper mechanism.

Supplied with a separate dry filter and kit BS8, the vacuum is raring to go whether a wet or dry application.

The WVD 900c carries the latest in technical compliance approvals and is part of a new improved product range produced by Numatic Specialised aimed at Wet Pick up Utility Applications. The vacuum can also be used for dry pick up applications as required. If you are looking to place an order contact the Specialised Office on 01460 269401 or E-mail: ukdistribution@numatic.co.uk
