

Numatic International Ltd Specialised WVD900dh Wet Pick up Utility Vacuum

Product code; 905444 (230v)

SSP; £586.13+ VAT

If looking for an easy emptying 900 sized option, the WVD 900DH is sure to fit the bill. Constructed of Structofoam which is an exceptionally tough compound that does not scratch, dent or deteriorate, is lightweight and resists all standard cleaning chemicals the vacuum is ideal for most cleaning applications.

Fitted with 2 x Twin-Flo bypass motors the vacuum offers more than enough power to tackle most applications and when full can easily be emptied utilising the supplied drain hose, fitted to the rear of the vacuum.

The vacuum is supplied with a separate dry filter and a full BS8 accessory kit making it suitable for wet and dry cleaning applications as required.

The WVD 900dh carries the latest in technical compliance approvals and is part of a new improved product range produced by Numatic Specialised aimed at Wet Pick up Utility Applications. The vacuum can also be used for dry pick up applications as required. If you are looking to place an order contact the Specialised Office on 01460 269401 or E-mail: ukdistribution@numatic.co.uk
