

WVD900C Technical Specification

Regulatory Compliance

Machinery Directive 2006/42/EC

EMC Directive 2014/30/EU

RoHS Directive 2011/65/EU

IEC 60335-1 2001 + A1 2004 + A2 2006 + National Deviations

IEC 60335-2-2 2002 + A1 + A2

IEC 60335-2.69 2002 + A2

EN 55014-1:2001 + A1 2001, + A2 2002

EN55014-2 1997 + A1 2001 (Cat II)

EN 50366 2003 + A1 2006

Features Include

Powerful 2400 Watt Twin Motor Output

10mtr Mains Cable

Structof foam Construction

Fully Mobile Drum Assembly

Tipper Mechanism

30 litre Wet and 40 litre Dry Waste Capacity

51mm Cyclonic Entry

Permatex Filter Set

Accessory Package

Two Year Vacuum Warranty

Selling Points; Compact Design, Cyclonic Entry, Wet or Dry Pick up

With Numatic Specialised you get more than just a vacuum cleaner. Our products are custom manufactured in our own bespoke workshops giving a unique build quality, while encompassing the traditional standard Numatic design. The products you buy from us are generally available ex stock and ready for immediate dispatch straight from our warehouse holding area.

Numatic WVD900DH Wet Pick up Utility Vacuum

If looking for an easy emptying 900 sized option, the WVD 900DH is sure to fit the bill. Constructed of Structofoam which is an exceptionally tough compound that does not scratch, dent or deteriorate, is lightweight and resists all standard cleaning chemicals the vacuum is ideal for most cleaning applications.

Fitted with 2 x Twin-Flo bypass motors the vacuum offers more than enough power to tackle most applications and when full can easily be emptied utilising the supplied drain hose, fitted to the rear of the vacuum.

The vacuum is supplied with a separate dry filter and a full BS8 accessory kit making it suitable for wet and dry cleaning applications as required.

The WVD 900DH carries the latest in technical compliance approvals and is part of a new improved product range produced by Numatic Specialised aimed at Wet Pick up Utility Applications. The vacuum can also be used for dry pick up applications as required.
