PCV1 VACUUM CLEANER

For Office Machinery
and Service Engineers

PCV1 Vacuum Cleaner

For Office Machinery and Service Engineers

Compact yet powerful the PCV1 is built to give long service and high performance. It is designed to be used for the cleaning of photocopiers, printers, office machinery, domestic and light industrial central heating boilers. Any static electricity build up is taken to earth through its conductive hose system. A high filtration standard is achieved through the use of a special high efficiency paper bag and secondary filtration system.

Features

- ★ Compact single fan motor
- ★ Thermal switch protection against overheating
- ★ Speed control
- ★ Fully earthed bonded to dissipate static build up
- ★ Three stage filtration:-
 - 1st Paper bag for photocopier/toner dust
 - 2nd High efficiency cloth bag
 - 3rd Circular microfilter
- ★ Sturdy carrying case houses PCV1 and tool kit
- ★ Tool kit consists of:-
 - 25mm x 2.5m antistatic hose assembly
 - Antistatic crevice tool
 - End brush for crevice tool
 - Swivel dusting brush
- ★ Optional yellow coily lead and wristband to prevent static build up in operator

Technical Specifications

Motor	Power	Performance	Cleaning Range
			
900w Max 750w Mean	230v/50Hz	Max Airflow 32 Litre/Sec Max Vacuum 2,500mm	15 Metres 50 Feet

Capacity Litres	Dimensions (H x W x D) mm	Weight
		
PCV1 2.5	PCV1 230x180x410	PCV1 4.2
	PCV1 in Case 300x240x460	PCV1 in Case 6.6
